

UL-DVR-4208HC-NV

Features:

- * High speed, high integration, low power consumption
- * Real Time operating system, strong network transmission ability and stability
- * Enhanced H.264 algorithm, 4 times normal H.264 algorithm compression, makes compression files as small as 60% of those by normal H.264
- * Window and graphic interface are user friendly
- * Menu note function can be controlled by mouse, front panel, remote control etc.
- * Preview in D1, support motion detection, OSD, realtime listening in
- * Support 8 channel video and audio playback realtime, support fast file playback
- * Support max. 1x 1.5 Terabyte hard drive, support USB2.0
- * Video files could be searched by video type, time, date etc.
- * Powerful software supported: Built-in web server, networking access for remote live viewing, recording, playback setting, system status and event log function etc.

Specifications:

| | |
|---------------------------|--|
| Main Processor: | High performance microprocessor |
| Video Output: | 1 CH RCA output 1 VGA output, DIN-15 socket (optional) 1 CH S-Video, 4-PIN |
| Video Compression: | H.264 |
| Video Compression Res: | PAL:352x288(CIF)/NTSC:352x240(CIF) |
| Video Frame Rate: | 25fps(PAL) 30fps(NTSC) |
| Playback Resolution: | PAL:352x288(CIF), horizontal line 300, vertical line 250 NTSC: 352x240(CIF), horizontal line 300, vertical line 220 |
| Audio Input: | 8 CH, RCA 2Vp-p |
| Bidirectional Talk Input: | 1 Channel, RCA, 2Vp-p |
| Audio Output: | 1 Channel, RCA, linear output |
