

## UL-DVR-4204HC-NV

### Features:

- \* High speed, high integration, low power consumption
- \* Real Time operating system, strong network transmission ability and stability
- \* Enhanced H.264 algorithm, 4 times normal H.264 algorithm compression, makes compression files as small as 60% of those by normal H.264
- \* Window and graphic interface are user friendly
- \* Menu note function can be controlled by mouse, front panel, remote control etc.
- \* Preview in D1, support motion detection, OSD, realtime listening in
- \* Support 4 channel video and audio playback realtime, support fast file playback
- \* Support max. 1x 1.5 Terabyte hard drive, support USB2.0
- \* Video files could be searched by video type, time, date etc.
- \* Powerful software supported: Built-in web server, networking access for remote live viewing, recording, playback setting, system status and event log function etc.

### Specifications:

Main Processor:	High performance microprocessor
Video Output:	1 CH RCA output 1 VGA output, DIN-15 socket (optional) 1 CH S-Video, 4-PIN
Video Compression:	H.264
Video Compression Res:	PAL:352x288(CIF)/NTSC:352x240(CIF)
Video Frame Rate:	25fps(PAL) 30fps(NTSC)
Playback Resolution:	PAL:352x288(CIF), horizontal line 300, vertical line 250 NTSC: 352x240(CIF), horizontal line 300, vertical line 220
Audio Input:	4 CH, RCA 2Vp-p
Bidirectional Talk Input:	1 Channel, RCA, 2Vp-p
Audio Output:	1 Channel, RCA, linear output
