

U-DVR-408-JJ

Features:

- * Low power consumption, low heat.
- * Low occupancy rate of CPU resources.
- * Better compatibility with pc components.
- * AVI video file format, play directly by windows media player.
- * Software and hardware highly intergrated.
- * Day frames and night frames can be set separately, reduce streaming, save hard disk space.
- * Powerful function for motion detection, multiple areas and multiple point setting.
- * Support privacy mask, ensure human security.
- * Internet dual streaming to manage with internal and extra internet.
- * Remote viewing / remote record.
- * Remote viewing by IE, no need to forward the ports for simple operation.

Features:

Operating System:	24 Channel Real Time OS
Video Input:	8 Channels composite video input
Audio Input:	8 Channels audio input
Compression Algorithm:	Video H.264
Recording Resolution:	CIF
Frame Rate:	200fps (PAL) 240fps (NTSC)
File Size:	50-500M/H/Ch
Network:	With client software or through IE to remote view or control
Other Functions:	Support motion detection record, alarm, plan alarm etc.
Power Supplier:	220+- 30% V, 50 +- 3% Hz or 110+- 20% V, 60 +- 3% Hz
Consumption:	1W
Dimension:	160*120*20mm
